TV Show Links Hoffa to JFK Slaying

COLUMBUS, Ohio — The House Assassinations Committee has found "significant indications" that organized crime and former Teamsters President Jimmy Hoffa were behind the assassination of John Kennedy, WCMH-TV reported yesterday. WCMH-TV newsman Frank Seltzer said in a copyrighted report that he has learned from "a highly placed committee source" that Hoffa and two top mobsters have been linked to the assassination in an as-yet-unpublished committee report.
